The second list is correct and covers equipment for your area. Prices of equipment shown here do not necessarily correspond with those of the first list nor with other lists because the machines may differ or the prices shown on the first list are higher due to inception costs.

The third list covers operations. A cost type of contract is indicated here, and the figures are for budgetary purposes.

The fourth list covers the equipment originally ordered through another agency but may now be handled directly.

Yours very truly,

[ ]
